Why choose D&D Metal Gate Hardware?

Exclusive Features Include:

- D[®] **Superior performance** – Patented features, thicker gauge metal and superior cycle, strength and finish protection
- D[®] **High quality appearance** – No rough edges left over from the stamping process & debris removed before finishing
- D[®] **Corrosion resistance** – The most complete finish coverage on the market
- D[®] **Fasteners** – Treated with the exclusive Weatherguard™ finish, then heads are powder coated for extra corrosion resistance
- D[®] **High-tech lubricants** prevent binding and provide smooth & quiet operation for our heavy duty metal hinges
- D[®] **Patented polymer bearings** improve the life and performance of our regular duty hinges
- D[®] **Packaging designed for YOU** – Double walled cartons with plastic banding ensure your product arrives in good condition
- D[®] **Warranty** – Only D&D backs the quality of our metal hardware – 10 year limited warranty on metal products (springs: 5 yrs)

The quality, performance and value-added support you've come to expect from D&D is now available with metal hardware at competitive prices!

D&D Metal Gate Hardware

D&D Technologies, the most respected brand in quality gate hardware, is partnered with Stanley, an internationally renowned hardware brand, to offer our customers a full range of metal gate hardware to complement our polymer range.

Two powerful brands working together mean you have access to the highest quality metal and polymer gate hardware from a single source – D&D Technologies.

Combine the highest quality products, at competitive pricing, with D&D's value added sales, marketing and technical support and you have a winning combination!

The D&D/Stanley partnership can help you increase business by providing **these advantages:**

- **Highest quality** – Stanley operates its own production facilities
- **Finish and performance** – Meets or exceeds industry standards
- **Pricing and Programs** – Better price/value
- **Superior terms** – Combine D&D polymer and metal products on your order
- **Free marketing literature** – sell more product to your customers
- **Bilingual English/Spanish instructions** printed on poly bags include pictorial graphics

D&D Technologies is recognized as the leading manufacturer of innovative, premium quality gate hardware. All D&D products are manufactured from the highest quality materials and undergo rigorous testing, to ensure they meet D&D's quality standards. D&D's products are backed by a written warranty, with some of the best product support programs in the industry!

Latches:

- **Superior performance** – Thicker gauge steel improves overall strength and durability
- **Highly reliable** – Unique features automatically compensate for gate sag
- **Adjustability** – Overcome ground settling with vertical and horizontal adjustment
- **Corrosion resistant** – Most complete finish coverage
- **Versatility** – Features that allow for flush and wall mount as well as flat & round surfaces
- **Security** – Strikers on all latches have heads to prevent the bolt from slipping through the latch

- English & Spanish instructions
- Product clearly identified

Drop Bolts:

- **Keeper** – Retains bolt in up position
- **Reliability** – Bolts won't drag across driveway
- **Superior design & finish quality**

Hinges:

- **No binding!** – Ideal tolerances, patented features and pins powder coated before assembly allow for free movement
- **Superior strength** – Up to 30% thicker steel and 22% larger diameter hinge pins
- **Low maintenance** – Patented polymer bearings and exclusive high-tech lubricants
- **Change handing easily** – Hinge pins easy to remove and replace
- **Corrosion resistant** – Most complete finish coverage

Manufactured exclusively for D&D Technologies by
